Put The Diamond Jubilee Day Over Big -- Let's Go!

DEVELOP A HAPPY INTELLIGENT, PERMANENT POPULATION

"One of the most important subjects to which any group of thoughtful Canadians can apply themselves is the question of: How we can, in Canada, secure an intelligent, a happy and a permanent population, especially in the rural parts? We have a country of boundless possibilities. In soil and climate, but already half our population is in the cities, and during the last six years we lost 50,000 of our citizens who did not find suitable living conditions in Canada, and moved on." Rev. D. M. Solandt, M.A., D.D., associate general manager and steward of the United Church at Calgary, declared at a Rotary Club meeting.

"When one faces great national problems it is well to look to other countries to see what is being done by them with similar problems. So we turn to review that old Britain has been doing during the last few years along the line of national building."

In 1917 a group of educational statesmen of Britain decided that there was something lacking in the "intelligent and spiritual background of national life." A representative commission was appointed and after three years of careful work in the course of which they reviewed all the different educational systems of the world they presented their report to parliament.

"A few quotations may serve to show its trend." Dr. Solandt continued, as he quoted statements to the effect that an undoubted democracy can not be other than a culture and that the international problem of world peace can hardly be made possible unless every intelligent person in the British Empire and the United States can realize the duty the problem imposes upon him. As we read the report of the commission, one is forced to believe that British statesmen fear that the leadership of the world is in danger of passing from the Anglo-Saxon nations to the Japanese, Chinese or Indian nations, and that the next war will be one of character and intellect and not of brute force," he declared.

Danes Are Convinced

"The British Commission found in Denmark a contented, intelligent and permanent rural population," the speaker continued. "The Danish schools look directly for strength and not for examinations. The children from their earliest years are taught to work together. The four basic subjects welcome pupils of all ages above 15 years. To quote their own definition of these schools: 'These are schools for life to which the older come and are sent back with greater inner joy, greater love for country, greater appreciation for a higher and more ideal conception of life. They study without text book or note book, the mother tongue, history, agricultural economics, singing and the Bible.' Their motto is: 'The culture of the mind must precede the cultural culture of the body.'"

"Through better training to work together in their schools, and the outlook given to them by the work of the four high schools, Denmark has become the home of co-operative effort of every sort. Danish butter has won new stand high prices in the market, and from 1882 to 1912

their export trade in farm produce increased 23 per cent. each year. Looking to the success of the Danish school system, which in a modified form is being introduced into the village which will be the centre from which radiate the influence of different form of effort, and to which people are attracted to find assistance in their social and intellectual needs. The Institute should have a library and museum, and a hall large enough for dances, concerts, plays, public lectures, and exhibitions. In a word, this institute should be the centre of educational, social and recreational activity," Dr. Solandt declared.

"Their plan was to try for the improvement quickening through the well-considered community. That plan would help Canada."

When this report was presented to the British parliament in November, 1919, the British educational leaders were nervously alarmed, because it showed that democracy was in real danger of falling through its own weakness. (Italian democracy has failed since for the same reason). In January, 1920, the British Institute of Adult Education was formed with Lord James Haldane as president, and Frederick Baldwin, Lord Grey and Lord Clynne as vice-presidents.

These men were still in office when the 1926 report was published. These men have carried on a vigorous educational movement. In 1926, 57 per cent of the population of Britain was within reach of library service. In 1926, 89 per cent had the advantage of such service. But they have changed the method from book lending to the encouragement of study groups, which are sent specially trained university extension lecturers. Not only has the library service and method been extended but changed, but the university life has been stirred to the idea of belonging to the whole people as the natural background in adult education.

"We need in Canada just such community organization around a library through which our decentralized universities would give their leadership to the whole country through the messages of the literature, whereby the lives of all would be illuminated by imagination, their interests and sympathies enlarged, and we continued process of education would be an inexhaustible source of happiness in their lives."

"That intellectual background is what has changed Denmark." By the establishment of such community centers, the Danish people, with the further aid of provincial loaning libraries from which all students might secure books and available, healthy, the intellectual and spiritual background of our national life would be greatly strengthened. "Our school systems should be reviewed from the standpoint of training up citizens for this community life. Under this community review, the recreational and social life would be developed, child welfare

ON CANADIAN PRO TEAM
Andrew Kay, professional caddy of London, Ontario, who has been selected to play on the professional golf team which will represent Canada in the games against the English golf team. The Britishers will shortly have Great Britain for the United States where they will defend the Ryder Cup, which they won for the first time last year.

BRILLIANT CANADIAN AUTHORS
A new and authorized photograph of Miss Mary de Korte, who recently won a \$10,000 prize offered by a well known American magazine for the best novel of the year—'Pagan' by Mr. Lynde of Toronto.

Free Transportation Is Cancelled

Free movement of farmers and their effects from the drier areas in south-eastern Alberta to new locations elsewhere in the province will stop at the end of May when the agreement between the government and the railway will expire. During the past season to the end of April a total of 568 families with 955 cars and other effects have been moved out of the area. The majority of settlers choosing their locations have gone to the farming country along the foothills from the Letbridge district to as far north as Grande Prairie.

problems would be dealt with; but the one of primary importance to a new country like Canada that would naturally find a suggested solution here is its immigration problem. Let each awakened self-conscious community look after the settling of its own vacant lands by regulating the government for the type of settler suited to their community, and when they come help them to succeed.

"When one thinks of the work done in Britain of extending library service from being available for 57 per cent. in 1926, to being available for 89 per cent. in 1926, as a Canadian one naturally feels a challenge to help in this work."

"With our schools definitely organized to train in the problem of living together as members of the community, with our universities training our leaders with the sense of social humanity and a desire to do life-long service," as Dr. Little, president of Michigan University, has recently said we must do very much a spirit of mutual trust established that wise methods of co-operative marketing will make the financial background of our rural life more secure, as in Denmark; with the industry of life constantly lightened by the ministrations of the great loans of life, as found in living, which administration should be living, we can accept Dr. Little's challenge and make good by developing here an intelligent, a happy, and a permanent population, especially in our rural districts." Dr. Solandt concluded.

Wheat Pool Campaign

The board of directors of the Alberta Wheat Pool have decided to commence an active campaign for the signing of the Second Series of Wheat Pool contracts. The drive is to start on June 26th.

In preparation for this campaign a conference of the seventy Wheat Pool delegates has been called for Monday, June 6th, in Calgary. This conference will last for two days.

On Wednesday, June 8th, a Co-operative Rally will be held, which will be addressed by notable speakers. The presidents of Manitoba, Saskatchewan and Alberta will be invited to attend and address the gathering. Others to be invited are: the federal members of the provincial legislature, the presidents of the various community clubs in the cities, towns and villages of Alberta, the officers of the United Farmers of Alberta and the United Farm Women of Alberta.

At the meeting of the delegates the campaign will be planned. Every wheat producer in Alberta will be expected to sign a contract. The Wheat Pool Locals, some 260 in number, will be called upon to undertake the work of covering the province. Each of the seven districts will be responsible for the organization of their districts and subsequent meetings will be held throughout the rural portions of the province.

The addresses to be delivered at the Co-operative Rally on Wednesday, June 8th, will be broadcasted by the Pool.

More Attractions For Tourists

The 1927 program of development in connection with Canada's National Parks includes the opening of the new sawtooth highway from Lake Louise to Golden, the building of an exceptionally attractive hotel in Waterton Lakes Park and the inauguration of a motor bus service between Banff, Park, Lake Louise and Waterton. Calgary, Banff, Lake Louise and Golden. These improvements will undoubtedly attract many more tourists to the scenic spots of the province this coming season.

FIRST FORTNIGHTLY CROP REPORT

Issued by the Department of Agriculture.

Strathmore Ladies Golf Club, 1927

The following is the Fixture Card for the season. Members are asked to please cut out and keep for future reference.

It is unable to play please telephone the Captain, Mrs. Ridley, as early as possible before the date of the draw. Each draw will be published in The Standard, and also in Mr. Relling's window. Please note and phone your partner to arrange time of game.

The Gross Score Cup competition was won by Miss Watson with an aggregate score of 182. The Consolation 225 by Mrs. Stockton.

June 1st—Captains vs. Vice-Captain, Match play.

June 8th—Ladies Foursome, for Club pins.

June 15th—Monthly Handicap, for prizes.

June 22nd—Mixed Foursome.

June 29th—One Club competition, for prizes.

July 13th—Ladies Foursome, for Club pins.

September 17th—President vs. Vice-President, Match play.

September 18th—Mixed Foursome.

September 19th—Qualifying round for Championship Cup and Consolation medal.

September 17th to 22nd—First round for Championship Cup and Consolation medal.

September 24th to 30th—Semi-finals for Championship Cup and Consolation medal.

October 1st to 7th—Finals for Championship Cup and Consolation medal.

Note—The men are working hard to improve the Course, and need money, so please pay your fees as soon as possible.

C.P.R. Crop Report

Wheat seeding in many parts of Alberta is completed, and the average will run from 86 to 90 per cent. Corn grain seeding has proceeded where soil conditions permitted. Early corn when it is up four to five inches, exhibiting good color and healthy stand. Many districts show increased weas acreage. Contrasting with this, however, many localities record low weas acreage. A careful survey indicates that the total wheat area will show a decrease in the neighborhood of five per cent as compared with last year. The corn crop is doing exceptionally well, and looks promising. Grass on the range is coming along rapidly and stock commencing to thrive. Practically one hundred per cent of sugar beet acreage has been seeded, and a large part of the crop is up.

Building Big Depot

Construction work is being started immediately on the half-million dollar depot to be erected in Edmonton by the Canadian National Railway, the contract having been awarded during the past week to the Permanent Construction Co., Edmonton.

EDMONTON: The opening of the 1927 crop season in Alberta, although spring work in common with that all over the prairie has been retarded by intermittent falls of snow and rain, finds rapid progress being made with seeding and the soil in a better than average condition for the production of a crop. A heavy snowfall during the winter months which melted with very little snow has provided an ample supply of moisture to carry the crop well into the growing season. Work on low-lying land has been delayed in some instances by the presence of water but this condition has been somewhat improved under the influence of sun and wind during the past two weeks.

Seeding of wheat is well advanced in the southern part of the province and fully 48 per cent of oats and barley are in the ground. Early sown grain is already making a good showing. The acreage seeded to wheat, oats, barley and corn in this area, it is expected, will show little difference from that in 1926. Losses of winter wheat due to winter killing are estimated at from 20 to 50 per cent, in southern and south-eastern districts. Owing to the abundance of moisture, soil drifting has been lighter than usual except in small, scattered areas where re-seeding has been found necessary.

Throughout the central part of the province, seeding of wheat is from 75 to 80 per cent completed, and the land is rapidly being put into shape for the coarse grain crops. The large amount of new land brought into cultivation last year will mean an increased acreage in many districts for the 1927 crop in spite of the reduced area of spring and fall plowed land ready for the drill.

In the northern section of the province conditions are reported as very promising with seeding well advanced in many districts, although in certain lower areas work has been delayed to some extent. No reduction in the acreage of wheat is anticipated for this season in the Grande Prairie and Peace River districts, and in this belt as well over the rest of the province, the outlook is considered promising if warm growing weather continues.

Reports from many districts in the eastern half of the province forecast a considerable increased acreage of sweet clover, alfalfa, corn and other forage crops, following the visits of the forage crop cars which toured this area during the winter months. Livestock in many cases has come through the winter in rather thin condition but pasture generally are making rapid growth.

No difficulty is reported in securing an adequate supply of farm labor to expedite spring work throughout the province.

ANOTHER PRODUCER IN SUNBURST FIELD

A brick demand for oil lease acreage in the extreme south of the province has followed the announcement that a flow of high quality crude oil has been struck at a depth of 2,385 feet in the Hart Green well located two miles south of the International boundary in the Kevin Sunburst field.

"MEN'S BETTER WEAR"

SPORT NOTES

BIG LEAGUES DEVELOP UNUSUAL PITCHING

They are off, and "Mat" Harbar is once more almost normal, after the real "honest" to "soul" moments lived up on Empire Day, and has their first workout of the season.

Poor old "Mat" was so kered up with hot air and enthusiasm that he almost the first two birds, and was ready to assassinate some person, when Anton Peterson coolly informed him that he had missed each of them by a mile. However, he steadied down later, and came across with a score of 19, which was very close to Peterson's score of 21, of which he was so proud.

Nels White made 22, and would easily have added a couple more, had he not been thinking about how the finances of the Baseball Club would come out.

Leslie West, quite as usual, slip pped over a nice score of 23, thereby putting the U.F.A. in the lead.

Young Garrison, a clip of the old block, landed 13, and he is quite confident now that he has got his range, that he will keep his worthy air guessing to keep ahead of him.

Among the absentees might be mentioned Morris West who had pressing engagement in Edmonton district, while it is reported that the Red-headed Druggist had a similar program in Southern Alberta, thus did the Gun Club cover Alberta completely in one single day.

R. H. Patterson, who thinks he is "some shot" threw his lot in with the members of the Cricket Club and "Mat" says it served him right that they got a good trimming.

Gene Giron also failed to report, and the decision arrived at that he is suffering from a similar disease to Rexall and Morris, and little hope are entertained for the recovery of any of them before passing through a case-trying winter.

\$700,000 ACCUMULATED BY FORMER NEWSBOY

WASHINGTON, D. C.—If you had \$700,000 in cash, real estate and stocks would you, gentle reader, swing a leg across a saddle and take a chance with your life in a horse race?

Of course, I wouldn't. Sure, that's going to be your answer, but that's just the thing which "Old Man Johnnie" Callahan, of Baltimore is doing this season.

William Keating, who makes Callahan's book, gave the writer some info on Callahan several days ago at Fulmore. It was to the effect that the one time newsboy, who started at the streets of the Monumental City, is now worth \$700,000. Not more than ten days ago, Callahan, who is one of the best as well as most gentlemanly fellows on the turf, cleaned up \$50,000 in a stock deal. He ate some of his inside info on the stock market from the millionaires for whom he rides, but 75 per cent of Call's dough comes out of his own pocket. He is a keen student of the stock market and it is a treat to sit around with him, earshot some morning and hear him discussing rubber, railroads, sugar, etc., with men who have made their pile in Wall Street.

Everyone who knows Callahan is glad to hear that he is well loved. He never was a spendthrift, neither was he a miser, for he brought up several brothers, one of which is now completing a law course at Columbia University. He has been good to his mother, brothers and sisters, is even better to his beautiful wife and children, and so merits all the success he has attained.

Call is probably America's richest Jockey, but he says that the fun of the saddle is too great and that he will continue to ride for some time.

WHISKERY SAVED THE BOOKIES MILLIONS

LOUISVILLE, Ky.—Western hand-book operators netted a fortune when Whiskery finished in front of Osmund in the Kentucky Derby.

Owing to the fact that Whiskery was not highly regarded in the early winter he did not come in for but a scattered play. When Osmund won the Preakness he was considered the best of the Whitley eligibles.

It was Osmund and Scepta Flow that the flocks flocked to with their coin. It is a conservative estimate that the bookmakers netted a profit of \$200,000 as the result of neither of these three-year-olds to score, the man saved some of his backers who had wagered on him all three ways. Had Osmund won, however, the bookies would have lost \$1,500,000 or more.

That neck of Whiskery saved the bookies close to \$3,500,000.

AGE NO HANDICAP

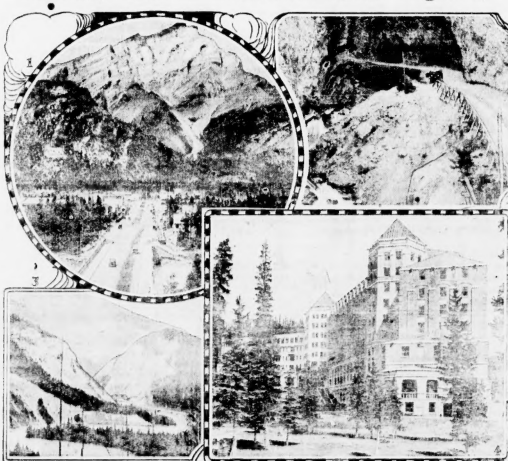

A quintet of the most brilliant performers on big league baseball diamonds has reached the ripe old age of 40 years. They are: Ty Cobb, Eddie Collins, Grover Alexander, Walter Johnson, and Jack Quinn. There are six more who will be eligible for the "40" club within a year or so.

HERE'S LUCKIEST GOLFER

A Kansas City golfer, Paul A. Deaver, lays claim to the world's sole-one championship. This fellow has sunk his tee shot for an "ace" on no less than nine occasions during the past five years. This is the fellow who makes Ernie Whitehead turn green with envy.

That's not going to be a hard job, for he can eat a man's sized meal and still do 100 pounds.

Another Link in Transcontinental Highway

(1) Main street of Banff, seen from Sulphur Mountain. (2) A section of the Banff-Windermere road, built partly through the picturesque Saddle Canyon. (3) Road center through the new highway winds. (4) The C.P.R. Chateau Lake Louise.

The opening of the Field-Golden Highway this summer will mark another great step in the completion of the all-Canadian highway from coast to coast. The continuation of the motor road, which last year was extended from Lake Louise to Field, has been carried on this winter by the Parks Department, and penetrates fifteen miles farther into the mountains to the western boundary of Yoho National Park, where it joins the new seventeen-mile extension from Golden.

The new road winds through one of the most picturesque sections of the Park—filled with associations of Palliser, of Hector, of memories of empire builders and pioneers. Dark canyons, silvery falls, green-white rivers beckon. Winding out of Field, the C.P.R. station for Emerald Lake, where the traveler turns his watch back an hour, and over the Kicking Horse river, the road follows the Emerald Lake trail for some miles while a wonderful view of the valley unfolds. It passes deserted cabins, Indian graves and an old German inn-tower. After leaving Oxbow on the Canadian Pacific Railway it continues around the foot of Mount Vaux and finally reaches Leavenworth. Here a branch road of a mile or so reveals the Kicking Horse Falls, a fisherman's paradise in a setting of beautiful jagged peaks. The road winds on through the deep

pass of the Kicking Horse to Golden on the banks of the Columbia river.

The construction of the Field-Golden Highway presented some very difficult engineering problems on account of the steepness of the slopes of the side hills. A good deal of excavation had to be done in solid rock. The probable cost of the new highway on account of the difficult and ruggedly mountainous terrain is estimated at \$24,000 per mile.

There will be inaugurated this summer a three-day circle tour from Banff and Lake Louise, covering the first day the most picturesque section of the Banff-Windermere road, the second, the section between Emerald Lake and Lake Louise, and the third, the section from Lake Louise to Golden.

It should only be a short time now before the whole of Canada's mountain world is opened up to the motorist. From Golden to Revelstoke is the last uncompleted link of the first great transcontinental motor road. The distance in all is ninety miles, but short ferries have already been built from town to town on the route. There is an old railway line available for a distance of about ten miles, but it is estimated that there is only fifty-seven miles of road remaining to complete direct connection across Canada.

Danger to the Canadian Wheat Market

EDMONTON—With the total wheat production of all the grain-growing countries of the world at the three billion bushel mark, and with Canada's production 400,000,000 bushels, an increased production of 10 per cent. by the other grain producing countries would make every grain market in the world independent of Canada, declared Dr. Robert Magill, secretary of the Winnipeg Grain Exchange, and internationally known, wheat marketing expert, when addressing the Board of Trade at the Macdonald Hotel Friday.

POOL SAME AS ALL GRAIN COMPANIES

Dr. Magill also stated very plainly and forcibly that the Alberta Wheat Pool was today operating on the grain exchange in precisely the same manner as other grain companies, dealing in futures, selling short, and exercising every privilege of a member of the exchange, exercising only its own judgment in its speculations.

"Of the grain produced by the world, only 700,000,000 to 800,000,000 bushels enter into international trade. Of this amount Canada provides 200,000,000 bushels," he declared, "but an increase of 10 per cent. in the world's production is not unthinkable, and we must not lose our balance or sense of perspective. The world did without our wheat until a few years ago, and the world may yet show us that she can do so again."

NO NEW IDEAS IN POOL MARKETING

Making no set speech, but dealing only with one or two of the aspects of the marketing of grain, Dr. Magill held that it was a fallacy to think that Canada could control the wheat price of the world, or that any new ideas of grain marketing were being put into practice today, as compared with the past.

"Although blamed for all the trouble

connected with grain marketing, the Winnipeg Grain Exchange is, in reality, a very simple thing," he said. "You can form a grain exchange in Edmonton or anywhere else for that matter. Any half-dozen men can form one. They don't even need to be incorporated. All the Winnipeg Grain Exchange does is to form a trading floor, equipping it with telephones and telegraphs, making its brokerage commission rules and rates. It has machinery for arbitration and for seeing that contracts entered into by its members are carried out, and it provides information regarding crop conditions and grain movements all over the world."

EXCHANGES DO NOT DEAL IN GRAIN

"The exchange does not deal in grain in any way. It manages no elevators; owns no flour mills; makes no prices, and does no business whatever in that respect. It is simply a piece of machinery to be used by the grain traders according to their judgment of the market. Every piece of information that comes into the exchange is passed for the benefit of all, and the exchange is international in its functions, international in its membership, international in its machinery."

Dr. Magill also made it plain that the exchange has no privileges in law and that no one is compelled to join it. "Just as soon as it fails to function by filling a public need it will cease to be and will disappear," he declared.

MANY MARKETS CLOSED TO CANADA

Dealing with Canada's grain marketing, Dr. Magill pointed out that there was no market in Australia or South America for Canadian wheat, while in the Orient there was only a small market which would remain

small for many years to come. Men, China, India and Java were wheat producing countries, the latter wheat producing as much wheat as the Orient, but the Orientals were not only not used to using wheat as a food but were also unable to afford it, so that the demand there would always be small, and it is a mistake to look upon that market for years to come at least, as a market for Canadian wheat.

In Europe where the greater market was, it must not be forgotten that the favorite food for many European peoples was not wheat but rye. This was true of Russia and Germany in particular. In Ireland potatoes filled the need and in the Orient rice was the great competitor.

Wheat Pool Notes

Commencing June 20th, the Alberta Wheat Pool will undertake an intensive drive for the signing up of the Second series of contracts.

Joseph Bennett, superintendent of the Prince Rupert Wheat Pool terminal elevator, was in Calgary and stated that twenty shipments of grain or six million bushels would be the season's handling for that terminal. The first boat, the Yone Maru, will load three hundred thousand bushels of wheat in June for Shanghai.

The first British Columbia Wheat Pool bond to be formed was organized at Brudenell, B.C., by W. J. Jackson, director of the Alberta Pool. British Columbia wheat farmers are greatly interested in the Pool.

Two terminal elevators she purchased by the Alberta Wheat Pool in Vancouver Harbor is one of the best locations for an elevator to be found there.

Two Great Dairy Records

TORONTO—Recently two Holstein cows have made wonderful records. The first is Maggie Calumity Hartog 79869, who completed a 365-day test as a mature cow and is credited with 28,172.9 lbs. milk containing 1,938.0 lbs. fat, thus showing 3.62 per cent fat in milk. This is the second time for this cow in production, over 1000 lb. fat mark, having made 10,000 lb. milk as a four-year-old. She was owned by Alfred Groves, Sillont, Ont., and is now owned by W. C. Hock, Chippawa, Ont. The other record referred to is that of Canary (Canada) A. 113289, who completed a 365-day test as a junior three-year-old, and is credited with 27,478.9 lbs. milk containing 1,909.9 lbs. fat, thus showing 3.27 per cent in the milk. This record was made on three times a day milking, and is the highest milk record in a three-year-old in Canada. She was bred by Fred V. Hecney, Ingersoll, Ont., and is now owned by H. H. Thomas, Bolam, Sask.

CHEADLE

Ray, Mrs. Miller, and Sam left on Tuesday for New York State, for a month's holidays.

Leonard Edwards is home from the hospital at Calgary. He feels a little wobbly yet, but is doing fine.

Gordon and Mrs. McKenzie arrived back in Alberta after a year or two's stay in Michigan.

Quite a bit of new ground is being broken in the district this year. Ted Hartell, Sam Loudenbach, Geo. Jackson and Kay Miller are breaking new ground.

Orrie Edwards received shipment of two hundred baby chicks last week.

Mrs. Charlie Hartell returned home Sunday, after a short visit to her old home at High River.

The New Ford Car

POIND, Ontario—A new Ford Car of extensively revised design was announced today in an official statement issued by W. H. Campbell, Vice President and Treasurer of the Ford Motor Company of Canada, Limited.

"Production of a new Ford Car, superior in design and performance to any now available in the low priced light car field, will shortly be started by this Company. The Model 'T' Ford, which, for twenty years, has been the leader in the automobile industry, will continue to be a substantial factor in production in view of the fact that all Model 'T's' are now in service, but, for many years, require replacement parts."

Information as to the date on which production of the new model Ford will begin was not forthcoming, but it was indicated that the work of swinging over the huge Ford Factory here, which is the largest automobile factory in the Empire, will immediately be initiated. This work will necessitate the replacing and rearranging of thousands of machines and will entail an enormous expenditure of money and labor but it is said that plans for its execution have been thoroughly developed and that the work will proceed with great celerity.

The new Ford Car, it is learned, has been designed by Henry Ford, who also designed the famous Model 'T' and its predecessors, and is the product of many years of engineering research. The present car was one of the largest factors in creating the conditions which now make the production of a new Ford possible.

The world wide influence of the Ford in the building of good roads and in teaching the people the use and value of mechanical power is conceded. Nowadays everybody runs some kind of motor power; but twenty years ago when the Model 'T' was introduced, only the adventure of

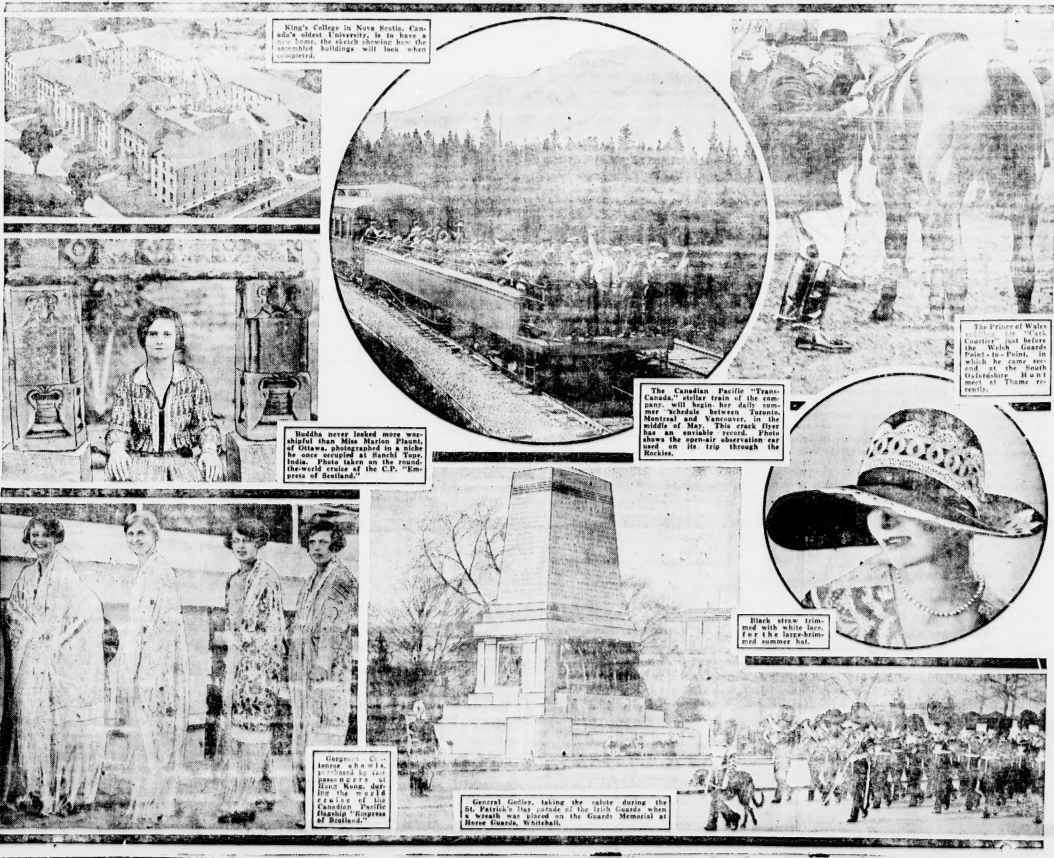

could be induced to use an automobile. It had a harder time winning public confidence than the aeroplane has now. The Model 'T' was the great catalyst in this respect. It was the car that ran before there were good roads to run upon. It broke down barriers of distance in rural sections, brought people of those sections closer together and placed education within the reach of everyone. It is still the pioneer in many parts of the world which are just beginning to be motorized, but conditions in Canada and in the United States have so greatly changed that further refinement in motor car construction is now desirable and the new model is a recognition of this.

With the new car the Ford interests will continue in the light car field which they created on the same basis of quantity production, giving high quality, low price and constant service. For this new model is claimed speed, style, flexibility and control in traffic. In quality and in price it promises to be a valuable contribution to the motor world. It is understood that it will cost more to manufacture than the present Model 'T', but that it will be more economical to operate.

Hughes Motors have not yet any information regarding when they may expect delivery of the new car.

WAGE WAR AGAIN

ON NOXIOUS WEEDS
A vigorous campaign against noxious weeds is again being undertaken this season by the Department of Agriculture. Following a number of conferences at different points in the province attended by officials of the department, municipal councils and farmers, the sixteen field supervisors will take up their duties and cooperate with farmers and municipal officials in the eradication and control of the weeds which every year reduce the amount and quality of grain yields.

King's College in Nova Scotia, Canada, added University to its name and a new building will look when completed.

The Prince of Wales' Courtier, last night, the Welsh Guards' Parade in London, in which he came second at the South Kensington Show. Thanks to the Royal.

Buddha never looked more beautiful than Miss Marion Plunkett, of Ottawa, photographed in a sari in the Canadian Pacific 'Trans-Canada' train. Photo taken on the road.

The Canadian Pacific 'Trans-Canada' railway train of the company, will begin her daily run over 'schedule between Toronto, Montreal and Vancouver, in the middle of May. This crack fleet has an average record. Photo shows the general observation car and its trip through the Rockies.

The Foundation of Smart Appearance

Smart appearance is a matter of proper conserving. Gossard Corsets, knowingly designed in the modern mode, are justly preferred by fashionable women everywhere. Smart appearance, yes—and comfort—are yours in this ideal Gossard Corset. A two and one-half inch elastic section under the bust gives comfort and freedom of movement. It has a four-inch elastic section across the back. May we show you a Gossard Foundation garment? A fitting will obligate you in no way.

LANGDON

Miss Gail, of Calgary, has been visiting her friend, Miss Gladys Miller, teacher at Fairplay School.

Dr. Ferguson, Supt. of Missions for Southern Alberta, conducted the service in the United Church, May 22nd.

MacIn Motors ball team came to Langdon Sunday afternoon, May 22nd, and was defeated by the local boys, with a 9 to 5 score. The Badgers were badly beaten by the Strathmore team on May 24th, score 11 to 1.

Johnny Barron had a birthday party last week, Thursday. He was three years old, and a dozen little friends helped him celebrate, and all had a splendid time.

Mr. and Mrs. C. W. Anderson and children and Mrs. J. Brander and Margaret attended the Children's Musical Festival, given under the auspices of the St. David's Society, in Paget Hall, on Saturday.

Mrs. H. W. Jesse was the Langdon delegate to the Women's Institute Convention held in Edmonton last week.

Mrs. F. Pegler, of Calgary, was a visitor at the home of her parents, Mr. and Mrs. S. Marshall, on Friday.

Miss Eva Lytle, a Normal student, spent Empire Day with her friend, Hazel Scott.

"Dick" Griffin left the first of last week for Banff, where he is going to work during the summer.

The Langdon and Bow River Agricultural Society held a meeting in the town hall May 18th. Plans were made to enlarge the exhibition building, build a judge's stand and more pens also to paint all buildings. A membership committee was appointed. The W. I. will again have charge of the refreshment booth.

A baby clinic for children of pre-school age will be held in the Women's Institute Club Room Tuesday, June 28th, by the Dept. of Public Health, Nursing Branch. All mothers

LOYD GEORGE ADMITS BREACH BY RUSSIA

LONDON—Former Premier Lloyd George, under whose government the trade agreement with Russia was negotiated, entered debate in the house of commons on the decision of the Baldwin government to sever relations with Soviet Russia. He said there were three questions that must be considered:

- (1) Whether there was sufficient evidence to justify the break if such a break was desirable.
- (2) Whether it was desirable that strong action should be taken at this stage.
- (3) Whether the government had not gone too far even if the desirability of strong action was conceded.

Regarding the first point, Mr. Lloyd George said that he thought the evidence was sufficient and that he must frankly admit that the Soviet government had not kept faith.

of the community are invited to bring their children, up to six years of age, and have them examined free by a competent nurse.

LOCAL NOTINGS

Since joining the School Board staff, Secretary Hector McGregor has been making plans to remodel his office, and had troubles on Saturday keeping the carpenter and electrician busy. He thought he did, but they flooded him part of the time. Electricians are the fellows who make the plumbing jobless.

E. T. Critchley, manager of the Crown Lumber Co., Ltd., Calgary, was in town a few days ago, making Hector McGregor step high and fast, looking up a location to build a real place that will accommodate the local manager and his family of young "Highlanders".

Mr. G. E. McKenzie and wife have arrived in town from Jackson, Michigan, and will be the guests of Mr. McKenzie's father, C. W. Chase.

A Free Clinic will be held under the auspices of the Women's Institute. All mothers with babies to six years of age wishing to take advantage, are invited. A prize will be given for the mother who possesses the most perfect baby. Report your name to Mrs. Hinchcliffe before June 27th.

The courts of the Strathmore Tennis Club are now in excellent condition for play. Those desiring of becoming members can obtain membership cards from Mr. E. P. Foster or Don McKay; single, \$3.00; married couple, \$5.00.

Harold Risdon has been appointed Justice of the Peace by the Provincial Government, so in future you had better treat his Würzburg with becoming respect or he may get you some day.

Carlsbad and Standard are each putting on a big sporting day on June 3rd. Don't forget to go if at all possible, and invite them back for the big Jubilee Day on Saturday, July 2nd.

Mrs. D. Sanderson, of Toronto, 14th street, of her brothers, H. A. T. H. and J. A. Porteous, of the Chebucto Falls.

W. D. Fisher and wife are holidaying in Toronto, and making all kinds of motor trips throughout Western Ontario. Mr. Fisher writes that the exhibition of fruit blossoms in the Niagara Peninsula is a wonderful sight. Building of all kinds is very brisk in Toronto, Hamilton, Niagara and St. Catharines.

Mrs. Frank Sinden was a Calgary visitor on Monday.

Mr. and Mrs. W. M. Davidson, of Calgary, leave on Thursday for London, England. They expect to spend the next year in Britain, and in France and Italy.

Mr. Alfred Johnson, who left for Sterling, Colorado some weeks ago, returned on operation on May 26th, at the Sterling Hospital, for the removal of a cataract of the right eye. She is doing very nicely, and is making her home with her daughter, Mrs. K. Watson.

Elmer Jenkins, of the Alberta Telephone staff, leaves on Saturday for Vancouver, where he expects to locate. Elmer has not yet made any special arrangements regarding the use of his "stop watch" in the meantime. Everybody will join in wishing him success in his new home.

Mrs. D. A. Perry is attending the Provincial Chapter meeting at Leitchbridge of the Order of the Eastern Star. Mrs. Perry must necessarily judgment selecting a rainy season when D. A. couldn't make too free

use of that now car when she was out of town. Got to keep a "trip rope" on these station agents.

Tex Richard Gunn does not say very much, but he has been on a "bull run" for a real bang-up boxing at Strathmore on Saturday, July 2nd, and aspects that that popular favorite, Basil Dimes and Southworth, in any case the fans can look forward to a real night's boxing sport to wind up Canada's Diamond Jubilee Day, with every moment a quiver.

Dr. J. W. Gillett presented Mr. and Mrs. A. A. Bartlett with a son on May 27th, at Mrs. McKenzie's Hospital. It is said that this young Dutchman is a perfect image of Granddaddy Bartlett, and the best looking one in the family.

Friends of S. R. Holson, publisher of the Okotoks Review, are extending sympathy to him in his recent bereavement, in the loss of his wife, the late Mrs. Holson was a sister of Mrs. (Dr.) F. W. Stockton, and Mrs. (Dr.) J. L. Gibson, and had been a resident of Okotoks for many years.

A blaze in the operating room on Tuesday night caused some excitement at Hattie's Theatre. However, no damage was done as the room is fire proof, and it was not necessary to call out the Fire Ladders.

This might easily be named Risdon Week. Harold Risdon became a worthy Justice of the Peace, and on Wednesday morning, at the meeting of the electors, William Risdon was placed in the office of councillor by Mr. T. M. Weaver, worthy burgess, to succeed Councillor T. W. Moore, resigned.

SCHOOL COLUMN

The winners of the physical training contest at the Empire Day Celebration were as follows: 1st, Miss McMillan's team; 2nd, Mrs. Crocker's team; 3rd, Miss Patterson's team.

The winners of the singing competition were: 1st, Miss Patterson's team; 2nd, Miss Strain's team; 3rd, Miss McMillan's team. We believe this was the first school singing competition ever held in Strathmore. It is hoped that it will, from now on, be a regular event in connection with School Fairs and Empire Day celebrations.

The rural schools made a very creditable showing in the parade on May 26th, but it is regrettable that they did not have a single entry in either the physical training or singing contests. More competition is desirable, and it is to be hoped that the rural schools will be prepared to enter teams in these events at the School Fair in September.

A supply of plant mounting cards and insect pins is on hand, and any teacher wishing some may obtain them by applying to the secretary of the School Fair Association. Word has been received from Mr. Benn, School Fair organizer, that there will be a convention of School Fairs in Calgary on July 4th. This is the first convention of the kind in Alberta, and should prove a most interesting innovation. Any teacher of competing schools or other member of the Association is entitled to attend.

REV. WINTERS, Pastor

FULL SEASON GOPHER BOUNTY ADVOCATED

Editor, Strathmore Standard.

Dear Sir:

Just a few lines in your much appreciated paper, hoping it may bring about a discussion for the benefit of all living in the Bow Valley and Keston Municipalities.

The question is: "What benefit is derived from giving a bounty of two cents a tail for gophers destroyed during April or early spring months only?"

Personally I think it just a step in the right direction. How often have we heard these words spoken in early springtime: "There are not many gophers this Spring." The reason is obvious because the females do not come out of their burrows until after they have reared their young. Hence, only the males have been caught, or mostly males—yet the young appear in due season, showing us that it is too late to trap the males, especially in late Spring. Is this true?

Children, between ages of eight and fourteen, do most of the trapping, and do it before 3:30 after school hours, when very often the weather is too cold and windy for results.

If this bounty was continued during the whole season, the gophers would be eliminated in a couple of years, and with better results than by using erythrine. Many little birds, which we need so badly, are killed each year by the use of strychnine.

CARSELAND

The School Sports Day has been postponed until September, owing to it being too close to the school examinations.

The Canseland ball team journeyed to Gleichen along with their usual fan supporters, on the 24th, and were lucky enough to pull down the second money prize.

Mrs. Pete Voight and her brother Carl, and Walter Weid, left for their old home at Junction City, Oregon, to attend the funeral of their father. Harold Smith tells a good one about "Tom" Grogan, when they were visiting at Vancouver. They had had a swell dinner that Sunday and prom-

ROCKYFORD

Mr. and Mrs. Albert Sinn were Calgary visitors last week.

Rev. Mr. Gilbert, of Oids, was a speaker at the Union Church, Rockyford, on Sunday, May 28th.

A delightful birthday party was held for Miss Lillian Tunnies on May 28th, at the home of Dr. and Mrs. R. D. Hewson.

Mrs. L. W. Bentley, of Portland, Ore., is visiting her mother, Mrs. O. James, for a few days.

Mr. F. W. Kattenbach, of Calgary, is visiting his son for a few days. Mr. Robinson, of Clithero, has taken up his duties as ditcher for the Swastika district, lately vacated by Mr. T. Rogers. Mr. Robinson is an old timer in the district.

On Thursday last week, the ladies of Rockyford had the opportunity of hearing a very interesting address given by Mrs. F. E. Wyman, of Calgary. Mrs. Wyman came to Rockyford under the auspices of the Women's Club, and the subject of her lecture was "Alberta Leaves". Besides this Mrs. Carpenter gave a short talk on "The Advantages of a Travelling Clinic", and Mrs. Waters and Mrs. P. Lyons favored the ladies with two vocal selections. Very nice refreshments were served by the Ladies Club at the close of the meeting.

We are glad to report that Little Merita Poole who has been in the General Hospital in Calgary, suffering from an infected arm, is greatly improved, and will return home in the next day or two.

Mr. and Mrs. McGuire motored to Calgary on Thursday last week. Mrs. Simon Ruppel, Mrs. Gibson, and Miss Kennedy made a trip to Calgary last week.

Mr. and Mrs. Ryan, Miss Ruth Leonard, Miss Mary Kennedy, and Mr. Frank Ryan Jr. motored to Calgary last Friday. Frank Ryan Jr. went in to Banff, where he has accepted a position for the summer months.

Mrs. Fred Campbell and small son, Beiseker, were week-end guests at the Griffiths home.

Mr. Billy Walker and Fred Campbell, of Beiseker, were visitors in Rockyford last week.

Mr. and Mrs. Ed. Wilson are the parents of a baby boy, born May 25th. Word has reached here that Mr. and Mrs. Larry Glickman, of Los Angeles, California, are the parents of a baby boy. Mrs. Glickman, who was Miss Sally Spillart before her marriage, taught school here for several years. Friends will be glad to know that Mr. Glickman is doing well in Los Angeles in the capacity of time writer for the movies.

The dance given May 4th, under the auspices of the raters, was quite a success, especially although it did not draw the crowd they had expected, due possibly to the fact that there were dances being held in several of the surrounding towns. The ladies of St. Rita's Altar Society, served the refreshments, and Jolly Boys orchestra, better than has ever furnished the music for the occasion. We might mention that some of the raters were conspicuous by their absence at this dance.

Mrs. Ryan, Mrs. Kattenbach, Mrs. Carl Brown, Mrs. Carpenter, Mrs. Gillespie and Miss Mabel Peters drove to Tudor last Wednesday afternoon, to attend a social and business meeting of the U.F.W.A. held at the home of Mrs. Bert Tyson. After the business of the meeting, Mrs. Jennie Henkle gave a very interesting and instructive address on "Alberta's Natural Resources". Very nice refreshments were served at the close of the meeting.

The tea and pantry sale, which was to have been put on by the Catholic Ladies League, in the Plotkins Building, on June 4th, has been postponed until Saturday, June 11th. Besides the tea, a new feature which is being introduced by the ladies is that of furnishing bridge tables for anyone desiring them for entertaining their friends.

We might mention, for the benefit of the public in general, that it is against the by-law of the village of Oids to have a dance in the Community Hall at night.

Miss Annie Allen, of the local Royal Bank staff, has been confined to bed, under medical attention, for the last week or so.

Canseland High School boys played a return game with the Arrowwood High School at Arrowwood last Wednesday, the visitors making a score in their favor of 3 to 4. The attention of the residents of Canseland is requested. Those who haul garbage to the river bank dump in Calgary, accompanied Gladys Zell's father, visiting the Calgary museum and other points of interest. Luckily they both got away without being noticed by the authorities.

Municipal District of Grasswood, No. 248.

NOTICE OF SALE

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that One Black Gelding, with collar marks, branded B-L on left shoulder, weight about 900, was impounded in the pound kept by A. E. Vigar, located on S.W. 14, 14-27-21, on the 14th day of May, 1927, and that the said animal was sold on the 28th day of May, 1927, to Mr. Skow, of Rosebud, and that the said animal may be redeemed by the owner, or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of said animal.

BIG HORN BREWING COMPANY LIMITED CALGARY

ROSEBUD

Mr. and Mrs. W. E. Hynes and son, Wilfred, accompanied by Miss Louise Cline, of Calgary, were week-end visitors at their home near Rosebud.

A very successful barn dance was held at the home of Mr. Wallace Bolick, on May 24th. The music was supplied by Twier's orchestra, and a good time was recorded.

On May 19th, the Ladies Aid of the United Church, met at the home of Mrs. Dunsmore. Considerable business was accomplished, following which a delightful luncheon was served by the hostess, the tea table being centred with a lovely cut-glass basket of carnations and fern.

Mr. J. Sander was a business visitor to Calgary on Thursday.

Mr. and Mrs. H. E. Haulty and son, Donald, with Mr. W. Priestley, of Edmonton, were guests of Mr. and Mrs. G. N. DePee over the holiday.

Rev. P. Halvorh, who attended the Alberta Conference of the United Church of Canada, in Calgary last week, returned to his home on Saturday.

Mrs. L. F. Krabben entertained at a jolly party on the occasion of her young son's fourth birthday.

Mr. and Mrs. J. Lees were visitors to Calgary on Friday.

Miss Kennedy, Miss McKinnon, Mr. Calvin Cobb, and Mr. Willis Groes, of Calgary, were visitors at the home of Mr. and Mrs. A. J. Groes over Sunday.

ELIMINATION CONTESTS PAYING BIG MONEY

NEW YORK—Detailed figures on the heavyweight championship battle being waged in this vicinity. They show that Gene Tunney is to receive \$500,000 and 50 per cent of net receipts; that Dempsey is to receive \$250,000 for his end in the battle and \$150,000 for all fights before then. Jimmy McInerney and Jack Sharkey receive \$100,000 each for their bout, and Sharkey will get \$100,000 additional if he defeats the winner of the proposed Dempsey-McInerney match.

In order to assure Tunney and Dempsey of their end of the purse, and to give the promoter a profit, their meeting may not be held in New York, where the \$25 per cent permit for tickets makes it impossible to secure more than \$950,000 in receipts. The fight will go either to Philadelphia or Chicago, and although the former is the most frequently spoken of as the probable site, negotiations are well under way for sending it to Chicago, where it is figured a gate of well over \$2,000,000 is possible.

READ THE WANT ADS.

HEARD ON THE STREET

About a Calgary photographer who advertised "your baby can be collared, tinted and framed for \$5.75."

The following conversation was overheard recently:

"I understand your wife thought of taking up law before she married you," remarked a friend.

"That's so," answered the other; "but no she's content to lay it down."

An old negro, when brought before the judge, was asked if he were the defendant. Pointing to his attorney, he said: "Dah de def'antant, Ise the gentleman what stole de chicken."

Tony Grogan asked his Jewish friend how many seasons they had in New York. He replied: "Ve hat two black and buy."

Bill Tierney says he can remember: When girls used to ask anxiously if mamma thought three petticoats were enough to wear out on the street.

When stenographers were eaten steel-cut and aprons at their work. When a woman hated to carry a corset box on the street because she felt everyone would know what was in it.

When bathing beach costumes consisted of full bloomers, over dress with full skirt and long, black stockings, and then a woman felt pretty reckless of her modesty.

When young fellows in Armory, and fellows not so young used to congregate on street corners on windy days to get a peek at a feminine ankle.

But Bill says: "I guess these days is gone forever."

Mistress: "Is my bath ready, Marie?"

Maid: "Why, 'his ain't Saturday night!"

Mistress: "How dare you? I bathe twice a day, of course. I don't want a maid as ignorant as you seem to be—your fired!"

Maid: "I don't want to work for a lady who needs a bath as often as that!"

"I drunk (bumping into telephone post): "Excuse me, sir!" (bumping into automobile): "Excuse me, little boy." (bumping into second lamp post and falling down): "Well, I'll just wait down here until the damn crowd passes."

Dentist: "Yes, I sometimes make mistakes too. What doctors we are?"

Patient: "Kindly speak in the singular."

Dentist: "Well, what an ass you are."

"Eddie Crellin, the pitcher, is very sick," commented one spectator while watching the ball game. "How perfectly interesting. Do introduce me," said the sweet young thing with him.

Thrilled Spinner: "He just rushed right up to me, crushed me to his bosom, and kissed me. It's lucky you came up, Mr. Policeman."

Manager: "Oh, that's all right, but please don't bother her during working hours."

"Here's a letter it would scarcely do for us to publish," said the patent medicine dealer. "A man writes: 'I have just taken a bottle of your medicine.'"

"Well," said his partner.

"There it breaks off short, and is signed in another handwriting, 'per Executive.'"

"Why the hell should they?" snorted Ernie Whiteside, as he dug up another slice of tart.

"Two heads are better than one," says Gene Giroux, especially if they happen to be at a machine party.

"The new girl tries mighty hard to look young, don't she?" asked Yvonne in a Calgary restaurant.

"Eh-yah!" replied the head waitress. "And about all she retains of her youth is her girlish giggle."

A Calgary boarding house lady says: "I never let my husband eat with the boarders. His appetite sets 'em a terrible example."

Clergyman (to parishoner): "I haven't seen your husband, Mrs. Blank, at our meetings for a long time. I hope he hasn't taken snuffage."

Mrs. Blank: "I shouldn't wonder, sir. 'E buys on these patent medicine."

Edgar: "Do you know the difference between trying to kiss you and trying to kiss Mary Jones?"

Katherine: "I'll kiss."

Edgar: "Exactly, and she won't"

"You say the prisoner had been drinking," said his worship to the policeman who was giving evidence. "Thinking what?"

"Whiskey, I think," replied the constable. "You think," snorted his worship. "Don't you know the smell of whiskey. Aren't you a judge?"

"Come back the reply: 'It is against the regulations for members of the Provincial Police to judge such stuff; ginger ale is his limit.'"

A little girl was seated on the front porch on 5th Street, when the salesman approached the gate. He tried to open it, but it stuck.

"Mother at home, little one?" he inquired, before making further attempt to enter the yard. "Yes, sir," replied the child, "she's always home."

The agent jumped the gate and rang the door bell. There was no response. He rang it several times more, and retired. The door remained closed.

Somewhat vexed, he turned to the little girl and asked: "Didn't you say your mother was at home?"

"Yes, sir, and I'm sure she is," answered the youngster.

"Then, why in the world doesn't she answer my ring, I wonder?"

"I think she will, sir, when you reach our house," came the prompt reply. "We live at Chichester."

"Yes, a Scotchman, and don't play goat!"

Jack Taylor: "Na, na! I used to play, but since I got twenty years ago."

"But why?"

"I lost my ball."

John: "Please! Just one more kiss before I leave."

June: "All right, but you'll have to hurry. Father will be home in an hour."

"Two McKinlay says that by the time he lost faith in Santa Claus, he began to believe in hair restorers. He is the fifth of man."

Lady: "Why aren't you a successful business man?"

Tramp: "Well, you see lady, I wasted my time in school instead of playing hockey like 'Foster' Grooms."

When Clint Lee was on duty at Moulton, a colored man came into the ticket office and asked for two round-trip tickets to Calgary. Clint knew him and asked who was going with him.

"My brother," said the colored man. "You're brother?" asked Clint. "Where is he?"

"Oh, there in a box. He's dead," answered the colored man.

"Well, if he is dead you don't want a return ticket for him."

"Yes, sir," said the colored man: "You see we ain't goin' to bury him in Calgary; but we have about forty kinfolks there, and we figured, it would be cheaper to carry him down to Calgary to de funeral service and bring him back, than to bang the whole family down here. Yes, sir, I needs two return tickets."

Percy Perkins: "Do you believe in the doctrine of reincarnation?"

Bill Wilkinson: "There must be something in it, my boy. I know of a woman of thirty who distasteful to many things that happened forty years ago."

Nervous Speaker: "Depend upon it, my friends, they'll keep on cutting the wool off the sheep that lays the dog's egg till they pump it dry."

"Gracious! That skirt is so tight that I can plainly see what you have in your pockets!"

"But I have no pockets."

"Then what is that lump?"

"Oh, that's a mosquito bite."

ADMINISTERING AN ESTATE IS A BUSINESS IN ITSELF

When you are debating with yourself whether to name an individual or a Trust Company, as Executor of your will and trustee of your estate, bear in mind this vital distinction.

With most individuals executorship is a side issue, for which they have no special preparation. Administering wills and managing estates is the business of a Trust Company for which it has been organized and is especially equipped.

Correspondence invited.

THE TRUSTS & GUARANTEE COMPANY, LIMITED

220 Eighth Avenue West, Calgary.

H. Howard, Manager.

Two Irish women were discussing the death of a neighbor.

"And what did he die of?" asked Bridget.

"Gangrene," replied her friend.

"Yes," thought heaven for the color, "aylow."

We have often wondered why some children are sent forth into the world handicapped in life by an outcasted name. The following story from Judge may help to explain how some of these names "happened."

The happy parents of a new baby took their infant to church to be baptized.

The baby was being raised "by hand," and where it went its bottle went also. After the arrival of the christening party at church, an accident happened. The nozzle of the milk bottle came off and the baby's nice new dress was soaked all down its nice long front. This annoyed the parents, but nothing could be done, as the time for the ceremony had arrived.

When the parents stood before the clergyman, the baby in its mother's arm, he looked at the damp dress with a good deal of apprehension, and to satisfy his curiosity the mother whispered:

"Nozzle came off."

The minister did not seem to understand, and turned inquiringly to the father, who said a little more loudly:

"Nozzle came off."

The good man understood this time, or at least he thought he did. He took the baby in his arms, sprinkled his forehead with baptismal water and solemnly said, before anybody could correct him:

"Nozzle-came-off Snyder, I now baptize thee," etc.

NORTHERN GRAIN SHIPMENTS HEAVY

A total of 5,441,475 bushels of grain have been shipped out over the Edmonton, Durango and British Columbia.

During the past season up to May 1, this company with 3,219,175 bushels moved during the corresponding period last year and 2,563,212 bushels in 1924-25. Points along the Alberta & Great Waterways line this season have shipped 440,129 bushels while 727,551 bushels have been moved from the districts served by the Lacrosse and Northwestern.

"Nozzle-came-off Snyder, I now baptize thee," etc.

THERE WERE THIRTY-THREE CONFEDERATION FATHERS

The Fathers of Confederation bear somewhat the same relation to Canadian history as the Signers of the Declaration of Independence do to the history of the United States. Like the latter, they are all venerated collectively, but individually certain names stand out above the rest—the master minds that made the great movement a reality. Just as Washington, Jefferson, Adams, Madison, and two or three others were the guiding spirits in drafting the terms of the Declaration of Independence and putting it through the Continental Congress, so Macdonald, Cartier, Tupper, Galt, Brown and Meeker were the leaders in the movement that resulted in the merging of the weak and scattered colonies of British North America in the Dominion of Canada. At the same time, while honouring the memory of these outstanding Canadians it would be unjust to forget the very real services of the other fourteen men who with them made up the Fathers of Confederation, or who, in other words, represented the legislatures and people of their respective colonies at the Quebec Conference in 1864.

At that Conference, Canada (which then embraced what we know today as Ontario and Quebec) was represented by Sir Elnora P. Tache, John A. Macdonald, Georges E. Cartier, William McDougall, George Brown, Alexander T. Galt, Alexander Campbell, Oliver Mowat, Hector L. Langevin, James Cockburn, Thomas D'Arcy McGee, and J. C. Chapin; Nova Scotia, by Charles Tupper, W. A. Henry, B. B. Dickie, Jonathan McCully, A. C. Archibald; New Brunswick by S. L. Tilley, John M. Johnson; Peter Mitchell, Charles Fisher, Edward Chandler, W. H. Speyer, John H. Gray; Prince Edward Island, John H. Gray, Edward Palmer, W. H. Pope; George Coles, T. H. Haviland, Edward Whelan, A. A. McDonald; and Newfoundland, by F. B. T. Carter and John Ambrose Shea.

Nearly all of these men had taken part in the Chatham House Conference that paved the way for the momentous meeting at Quebec; most of them were instrumental in steering the Quebec Resolutions through their respective legislatures; and with the exception of the Newfoundland delegates, practically the same group met again at Westminster in 1866 to prepare the final draft of the British North America Act—the Constitution of Canada. Newfoundland, after some hesitation, finally decided not to join the new Confederation. In 1898 delegates were sent to Ottawa by the Arctic Colony to discuss terms of union, but unfortunately the negotiations fell through, and have never since been resumed.

Prince Edward Island, several years to deliberate, but finally came into the Dominion in 1872. In the meantime the Red River Colony had joined the Union as the Province of Manitoba; and the following year British Columbia also became a member. Saskatchewan and Alberta became provinces in 1905. As each of the thirty-three Fathers of Confederation had been political leaders before the creation of the Dominion, so after Confederation each of them took an active part in the public life of the country, some as members of the federal cabinet, the Senate, or the House of Commons; others as members of the various provincial governments or legislatures; others again as lieutenant-governors of provinces, or members of the judiciary. By a curious coincidence two unrelated John Hamilton Grays sat in the Quebec Conference. One had been minister of Prince Edward Island and the other became a Judge of the Supreme Court of British Columbia.

REV. MR. ROWE LEAVING STRATHMORE JUNE THIRTIETH

Rev. A. H. Rowe, of the United Church, is leaving Strathmore at the end of June, for Grimsby, where he has been invited and will be succeeded by Rev. Mr. Wilkinson, who has been at Cayley for several years, and was at Plush Creek for seven years. Rev. Mr. Rowe has done very excellent work since coming to Strathmore five years ago, especially among the young people and the boys and girls, all of whom seem to be very closely associated with him. This was a real service to the community, not only to the United congregation, but also to the citizens in general. In the sporting world Mr. Rowe has been quite an enthusiast, ever ready to help in advancing any clean sport. The Standard would like to suggest that it would be quite a fitting close to his successful work in Strathmore, if subscription lists were opened at Galeway's, Department Store, Strathmore Trading Co., and Martin Garret's, giving citizens in general, an opportunity to assist in securing a fitting recognition of the good work done by Mr. Rowe.

It will send him on his way feeling that his efforts have been partially recognized, and it will be a nice introduction to his successor, Rev. Mr. Wilkinson, who will at once feel that he is beginning work in a field that appreciates honest efforts on behalf of the community.

That the very best and kindest wishes of the citizens will follow Mr. and Mrs. Rowe to their new home at Grimsby, is amply vouched for in the very large petition that was signed asking that he reconsecrate his decision to resign the local pastorate.

PROSPECTS BRIGHT IN LETHBRIDGE NORTHERN

Highly encouraging prospects for the 1927 season in the Lethbridge Northern Irrigation area are reported by Premier Brownlee and Hon. Y. W. Smith on their return from a conference with members of the advisory board of the irrigation on May 16. It is expected that the acreage under cultivation in this part of the province will be considerably increased this year.

THE STEAMSHIP COMBINE ON THE PACIFIC

The Winnipeg Free Press comments upon the Pacific steamship attempt to increase rates as follows:

The pleasing methods of the North Atlantic Shipping Conference, from which Canada has suffered on various occasions, are now being extended to the North Pacific, as a despatch from Vancouver in yesterday's paper makes clear. The rapid growth of Vancouver as a port has been largely the result of the amount of free shipping of which it has been able to avail itself. There has in consequence been free competition; and Vancouver has profited by rates a good deal lower than those which the North Atlantic combine have been able to impose on the Atlantic. It could be predicted with certainty that once the shipping trade out of Vancouver assumed large proportions, the shipping combine would attempt to control it, for the purpose of laying additional toll upon it. The time, in the judgment of the allied shippers, has now arrived.

There has been in existence for some years a Northern Pacific Conference, made up of British, Japanese, Canadian and United States shipping companies; but it is only now beginning to adopt the methods of the Atlantic Conference of which there is a charming manifestation a few months ago when it levied staggeringly increased upon Canadian agricultural and industrial exports to Europe. True, the principle thus set, the North Pacific Conference looked around to find some thriving and growing Canadian export trade, strong enough to be made to stand and deliver. Such a business was found in the Canadian flour export trade to Japan and China. This trade has been growing for years, and at present with a good-sized British army stationed in China, the demand for Canadian flour is likely to grow. The combine marked down its flour trade as victims; and proceeded to inform it as to the terms upon which it would be allowed to continue to do business in the Orient.

The rate on flour from Vancouver to China ports, fixed by free competition, is \$5.50 a ton. This is not enough to run the combine, which has figured out that the flour business is profitable enough to enable an increase in the levy of about 30 per cent. If the competition of tramp can be eliminated, it has therefore, delivered an ultimatum to the Canadian flour shippers. It will continue the present rate of \$5.50 for six months longer—six months is not a very long time—provided the flour shippers agree to have ships belonging to the Conference all their shipments to Asiatic ports. Otherwise the charge will be \$7 a ton. If the shippers accept the terms they may save some upon the rate going to \$7 in six months, by which time the independent lines which have been competing for the flour traffic would be broken out. The proposition has been put up badly to the Canadian flour mills without any pretence or camouflage; the shipping companies are out to put these mills in a position that they can ship only to the Orient in their ships and at such rates as they choose to impose.

The proposed transacting is a typical illustration of Conference methods. The people of Canada ought to realize more acutely than they do the danger

to this country which arises from their defencelessness against the exactions of an organization which periodically checks over Canadian export trade to see if there is not an opportunity for shoving up shipping rates to a higher notch. The fact that they check this country's export business and result in this country losing markets which it has taken years and vast expenditure of time and money to obtain does not mean much to the Conference; it is prepared to take a chance since, if it guesses wrong and kills the traffic by its exactions, the loss will be borne chiefly by Canada. This is a matter to which, as the Free Press has said many times, the Canadian government cannot be indifferent. It cannot control ocean rates. It has no influence with the Conference. But it can see that Canadian export trade is not put out of business by extortionate shipping rates. A couple of ships of the Canadian Government Merchant Marine, plying between Vancouver and Shanghai, would put an effective stopper to the monopoly projects of the Northern Pacific shipping combine.

HIGHER PRICES ARE ANTICIPATED FOR GRAIN

CHICAGO—A marvelous bull market in corn, wheat and oats looms, all depending on the weather. A more bullish spring has not been known in years. Almost as bad as three years ago are conditions confronting corn and oats. When it is less bullish than corn, wheat, despite the fact that world consumption on last year's crop has broken all records. Up to the present Canadians have all the best of the wheat price for several months. But any further delay in sowing in Manitoba is apt to stand and deliver. Such a business was found in the Canadian flour export trade to Japan and China. This wheat crop has been pretty thoroughly digested and reserves are dangerously small.

In Kansas and other parts of the winter wheat belt, which is wonderful—but this is effect by bullish conditions that prevail elsewhere. Corn is in a most critical stage. I predict dollar corn before June 15—and in fact one is foolish to set any limits as to when corn can sell at this magic figure. It could easily be achieved in two days instead of two or three weeks.

Dic money is back in the grain market. Bears are stubbornly fighting the advance but they are getting thoroughly whipped. Only a complete reversal of weather conditions can prevent a rising output in the next three weeks. There is still a big short interest in May wheat. And May wheat has gone out weak for six successive years and is now due to reverse itself. Shorts in any May contracts are likely to be soundly thrashed. In fact with bullish sentiment and support increasing every day the short side has gone aside.

Oats look to be an investment purchase here. July oats can sell in the high octies—but as stated before—wheat is not buying grain now but wheat.

COMING EVENTS
 Strathmore cricket team will meet
 the Calgary Bankers and Brokers in
 Strathmore on Saturday, June 4th, on
 the new grounds in the park.
 The Nightingale Dance, which was
 to have been held on June 1st, has
 been postponed until June 3rd. Strath-
 more Elks orchestra will furnish the
 music.
 A Silverthorne's Sale on June 3rd,
 near Chedoke. A Layzell, Auctioneer.
 If you have anything to sell, you can
 add to this sale.
 Friday and Saturday, June 3rd and
 4th, Hirtle's Theatre, "The Eagle of
 the Sea," a Frank Lloyd production,
 and on Tuesday, June 7th, Milton Sills
 in "The Silent Lover".
 A U.P.A. meeting will be held on
 June 11th, at 8 p.m. in the committee
 room of the Memorial Hall. Leslie
 West, Secretary. 8-6-11

**NOTICE TO MY MILK
 CUSTOMERS**
 Beginning June 1st, and con-
 tinuing through the summer
 months, I will leave at Cott's
 Meat Market, daily both fresh
 milk and cream, for the convenience
 of MY OWN customers
 only.
 "Service and Satisfaction" is
 my motto.
